

FOR IMMEDIATE RELEASE

Mansfield Plumbing unveils high-efficiency version of its top-selling Alto toilet

- All Made in the U.S.A. -

-- New American-made toilet delivers a powerful flush using only 1.28 gallons of water --

PERRYSVILLE, Ohio (May 6, 2011) – Mansfield Plumbing Products (Mansfield) today announces the availability of its new Alto 1.28 toilet. The manufacturer took its most popular toilet, the Alto, and improved its water efficiency and flushing system.

“We’re the only manufacturer offering American-made, high-efficiency toilets at such competitive price points,” says Charles Scott, vice president of marketing for Mansfield.

“Consumers should know they don’t have to ‘break the bank’ to have a top-quality toilet that also helps lower their water bills – and our Alto 1.28 is proof.”

Thanks to its 3” hybrid flush valve, the U.S.-made Alto 1.28 flushes 600 grams. The new toilet also:

- Comes in three configurations: ADA, elongated and round front
- Features jet and hydraulic enhancements that virtually eliminate clogs
- Is compliant with WaterSense™
- Meets Buy America and ARRA requirements

Just last year, the Alto was recognized as the top performer for the price by a top independent testing company, which tested 19 single-flush toilets.

The new Alto 1.28 joins Mansfield’s extensive line of high-efficiency toilets that use as little as 1 gallon per flush and include single-flush and dual-flush units.

ABOUT MANSFIELD PLUMBING

Mansfield precision manufactures more than 2.5 million pieces each year at its U.S. headquarters in Perrysville, Ohio. Two other plants operate in the U.S.: Big Prairie, Ohio, and Henderson, Texas. With almost 500 employees, Mansfield is one of the largest domestic

producers of sanitary ware, and is proud to say many of the products are “Made in the USA.” Mansfield’s plumbing fixtures and fittings are available through one of the industry’s most extensive networks of more than 2,800 distributors located throughout the U.S., Puerto Rico and Canada. Additionally, the company’s plumbing products are sold through select retail, do-it-yourself home improvement centers and designer kitchen and bath showrooms. Mansfield Plumbing Products, founded in 1929, was purchased by Corona (one of the world’s largest manufacturers of china) in 2004 and is a leading producer of top quality, high-design, performance plumbing fixtures and fittings for use in residential, commercial and institutional markets.
