**Viridian Reclaimed Wood** has launched American Classics, a line of reclaimed red oak, white oak and rustic oak solid-plank hardwood flooring. Derived from industrial shipping crates in the southeastern United States and milled in Portland, OR, the oak planks measure  $\frac{3}{4}$  in. x  $4\frac{1}{2}$  in. and come in random lengths of 3 ft. to 8 ft.

**Circle No. 227**

**Bruck Lighting** has expanded its Bolero collection to include Dove and Santa Fe (shown) pendants. Designed for use with the company's V/A Chandelier I and V/A Chandelier II, both feature a  $4\frac{1}{2}$ -in. x  $5\frac{7}{8}$ -in. free-blown glass diffuser and are available in a halogen or LED version. Dove is also offered as a sconce. **Circle No. 228**

**Blanco's** Alta combines good looks with water-saving performance. It boasts a 1.5-gpm flow rate, is CalGreen-approved and comes in polished chrome and satin nickel, as well as a variety of Silgranit II colors, such as café brown, biscotti, truffle and anthracite.

**Circle No. 229**

**Devon & Devon's** Old World Floor Collection is a line of reclaimed wood parquet flooring incorporating remilled oak beams salvaged from vintage homes. Five designs are available: French herringbone; Italian herringbone; Chantilly, which is composed of large diagonal squares; Versailles, which takes its name and design from the Palace of Versailles; and Old Oak Planks (shown), which offers 10-cm, 15-cm and 20-cm widths and lengths of 90 cm to 250 cm. All are finished and varnished by hand. **Circle No. 230**

**Mansfield Plumbing** has introduced Cascade, a rimless toilet that uses 1.28 gpf. As dirt and stains tend to collect under the rim, its elimination allows the toilet to stay clean longer. This is further helped by a series of holes at the top of the bowl that produce a swirling action when the trip lever is activated. The holes are visible and accessible for easy cleaning. Available in a round or elongated front model in white, Cascade is WaterSense-certified. **Circle No. 231**

## THE ART OF BEING UNIQUE

The detail and craftsmanship  
of your work sets it in  
a class apart
