Suited for hospitals, schools or other children's applications, Mansfield Plumbing's Elementray Toilet is a 1.28-gpf HET specially designed for kids. The toilet includes several safety features such as a slow-closing seat to protect the children's fingers and a cover lock that prevents them from playing with the tank trim. The Elementray toilet is 24" to the top of the tank with a rim height of 11 1/4", which meets ASME's juvenile height standards as well as TAS standards for 5-to-8-year-old children.
