Great Performance

1,000 grams MaP rating.

Pilot-Operated, Anti Siphon Valve

Compared to traditional ballcocks the pilot-operated fill valve is more consistent over a wide range of water pressures. It features a patented shut-off and easily adjusts to the optimum water level.

3-Bolt Installation

The 3-bolt system provides a sturdy and level connection between tank and bowl and prevents rocking and leaking.

Universal Design

Complements any bathroom decor.

Multiple Solutions

Available in 4 configurations covering all your application needs: Round front, Round front SmartHeight,[™] Elongated and Elongated SmartHeight.[™]
