

mansfield Ariance™ Air Systems

Immerse yourself in tranquility and slip away into our world, where water performs in harmony with delightful air jets for a complete hydrotherapy massage. Create an oasis of comfort, your own personal health spa. Surround yourself with millions of gentle, body caressing, effervescent air bubbles. Choose from one of three Ariance™ air systems. Let it immerse you and quietly soothe away the stress of everyday life.

HealthTouch™

Direct Therapy Air System

The Health Touch™ Direct Therapy System offers a powerful and rigorous hydrotherapy massage, designed to relax your muscles and body. Quiet and effective, Health Touch™ boasts 46 to 63 powerful side, back and foot jets that create direct air jet action for maximum bathing comfort and enjoyment. Health Touch™ equipped air systems are feature rich and loaded with many competitive options - as standard features.

Key Features:

- Health Touch™ Direct Therapy System - Powerful and rigorous hydromassage for full body therapy.
- Advanced Control Panel - Microprocessor controlled, full function soft touch panel with wave, pulse, continuous, light, heated neck/backrest and speed control.
- PerfectBack™ System - Multiple rigorous recessed back HealthJets™ for ideal therapeutic massage, heated backrest with on/off control, ergonomic raised backrest with optimal slope and exclusive custom or rainbow-shaped pillow(s).
- Chromatherapy System - Seven healing light settings with full color spectrum sequencing mode.
- Heated SilentAir™ ultra-quiet blower with integrated heater and sound suppressing features.
- Automatic Purge System - Two minute automatic air channel purge for maximum hygiene.
- QuickDrain™ Channel System - Our side-mounted channel system offers hygiene and peace of mind. Smooth inner channels with radius corners deliver superior cleanliness and reduces water retention. Gently angled channels with dual drain down ports provide improved drainability.
- Pillow(s)

GentleTouch™

Immersion Air System

Designed for a relaxing and tranquil hydromassage, the Gentle Touch™ Immersion Air System offers a quiet and therapeutic bathing experience using multiple air injector jets. Sixty to seventy-five effervescent air streams immerse the user in a delightful massage. Ergonomic jet placement throughout the bath ensures the delivery of full body, back, leg and foot hydrotherapy. Every GentleTouch™ air bath features air injectors with check valves for complete hygiene and safety.

Key Features:

- GentleTouch™ Immersion Air System - A gentle and soothing full body massage.
- Advanced Control Panel - Microprocessor controlled, full function soft touch panel with wave, pulse, continuous, light, heated neck backrest and speed control.
- PerfectBack™ System - Multiple rigorous recessed back GentleJets™ for ideal therapeutic massage, heated neck and backrest with on/off control, ergonomic raised backrest with optimal slope and custom or rainbow pillow(s).
- Chromatherapy System - Seven healing light settings with full color spectrum sequencing mode.
- Heated SilentAir™ ultra-quiet blower with integrated heater and sound suppressing features.
- Automatic Purge System - Two minute automatic air channel purge for maximum hygiene.
- Pillow(s)

DualTherapy™

Complete Performance Air System

Choose the therapy that fits you best. DualTherapy™ Ariance air massage baths feature both the HealthTouch™ system with QuickDrain™ air channel system technology and the GentleTouch™ Immersion Air injector system. The combination is operated with a multi-function control that gives a bather the flexibility of controlling both systems individually or synchronized together.

Key Features:

- The Best of Both Worlds featuring both top of the line systems - HealthTouch™ and GentleTouch™
 - Full featured HealthTouch™ Direct Therapy Air System
 - Full featured GentleTouch™ Immersion Air System
- DualTherapy™ advanced digital controller handles both systems individually or synchronized together.
