

BATHWARE HYDROTHERAPY

A SYSTEM FOR EVERY BATHER

Five unique hydrotherapy systems to build
the exact bath configuration you're looking for.

BATH

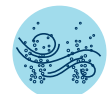

WHIRLPOOL

AIR MASSAGE

MICRODERM™

COMBINATION

 **MANSFIELD®**

BATH

Simplicity at its finest. Fully submerge in a roomy soaker.

Available in all Mansfield® bathware collections.

WHIRLPOOL

Fully controllable, high-pressure back and body jets for complete muscle relief. Control both the direction and force of the water flow to pinpoint the therapy where you need it the most.

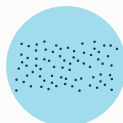

Available in the Mansfield® Swirl-Way®, Pro-Fit® and Walk-In collections (some models excluded).

AIR MASSAGE

Discreet air injectors create huge air bubbles to revitalize the body with a gentle massage, leaving bathers deeply relaxed.

Available in the Mansfield® Swirl-Way®, Pro-Fit® and Walk-In collections (some models excluded).

MICRODERM™

This innovative system uses a single port to inject millions of tiny oxygenated microbubbles, infiltrating the water within seconds for rejuvenating exfoliation and hydration of the skin.

Available in the Mansfield® Swirl-Way® and Walk-In collections (some models excluded).

COMBINATION

Combine the Whirlpool and Air Massage systems for the benefits of both therapies. This system allows you to operate the whirlpool jets and air jets independently or together for unrivaled comfort.

Available in the Mansfield® Swirl-Way® and Walk-In collections (some models excluded).
