

# 2020 Corona Industrial Sustainability Report

How we manage our operations is motivated by our commitment to sustainability from the perspective of the triple bottom line: economic, social and environmental. We implement projects that contribute to generating shared value and strengthening our social license to operate by leveraging our organizational strengths and skills and adopting best practices in how we relate with our stakeholders.

## MAIN ACHIEVEMENTS 2020

### SOCIAL

**We generated 8,874**  
direct jobs

**580,260 persons**  
benefited through our social programs (including social projects, COVID-19 and natural disaster relief initiatives)

**More than 200 hours**  
donated through virtual volunteering activities and more than 85,000 people have been benefited since the program began in 2012

**More than 4,000 employees**  
benefited through the Materials Bank program that provides products for home improvements

**We completed the construction of the new rural school La Danta**  
in the town of Jerusalén (Sonsón, Antioquia) which has a capacity of **494 students**. This was carried out through the public works for taxes

### ECONOMIC

**We export to 47 countries**  
in 5 continents

Savings derived from projects with Corona Kit tools and with the support of Black and Green Belts **exceeded USD 8,1 millions in 2020**

We stimulated **innovation and the growth platforms** to further strengthen our value proposition

**Sales of USD 676,8 millions**

**8.7% sales growth**  
compared with 2019

We innovated with products such as **Forticaps Caninos, Ah! Gata, Fort M** and portable hand washing stations

### ENVIRONMENTAL

**we recirculate 323.1 million gallons** of water equivalent to the consumption of 79,406 families composed by four persons in a month

**We reduced CO2 emissions** by 13,744 tons in 2020 through the implementation of energy efficiency and management initiatives

**More than 80% of our** production lines use natural gas, one of the cleanest fuels in the world

**We leveraged 60,300 tons** of residues and reused more **than 85,000 tons of materials** to substitute raw materials in our processes and those of third parties.

We have **4 Nature Reserves of the Civil Society** for a total of 74.39 hectares and we have restored and preserved more than 1.291.000 square feet of rivers and streams adjacent to the areas where we operate

We maintained the certification of the **Environmental Management System** under the ISO 14001:2015 standard at our main manufacturing plants
